

Die fürsorgliche Art der PRE...

Zuchtstute KENIA mit zwei Tage altem Stutfohlen NAMBROCA

Flamenco and his mares

Stutfohlen NAMBROCA geb. 24.05.2003

Eine neue Generation:

Hengstfohlen FEUDAL v. Flamenco a.d. Duquesa

geb.:24.05.2003

with the riding and training of the young horses. Hof Scheyenholz organises special information meetings hosting to a wide range of public, for example "Open Day" and specialised topics for branch interested partys, for example Longe and Morfologie courses etc.

A few times a year Anita Hettich and Beat Münger visit Spain, to take part in Spanish Breeders shows with their horses, enabling them to control their Breeding standards. By doing this they have already achieved amazing results. Flamenco LH, the Stallion of the stud farm, won as 2 and also as 3 year old in his class at the German Championship for PRE. He won a Breeders show in Valencia, Spain and reached a good 5th place at the Final of the Spanish Championships. Orion, an offspring stallion was the winner in his class, aswell as the best showed Stud in Germany last year. Travelling to the country of origin of PRE always serves as a good way to exchange information with colleague breeders.

alongside, an additional important point to enable the set goals to be reached. Working with the breeders is one female worker and a farmer who take care of the farmwork and look after the young horses. The farm offers work placement training for people interested in Horse Breeding.

The Farm welcomes visitors at all times, appointments can be made by telefon. Further information can be found at:
